“ I suspect most of the messages left on this page will sound very familiar. Ken Sampsell never met a stranger and never left the room without leaving an impression. He was a hard working man of integrity and principal. Like so many, I had the privilege of doing business with Kenny for the last seventeen years. It quickly morphed from a business relationship into a wonderful seventeen years of great phone conversation sprinkled with visits to Birmingham. Although Kenny was several years my senior, he never once spoke to me without respect. He always treated me as an equal and I am forever grateful for his friendship and kindness. Like so many, I was devastated to hear the news. I wish his family nothing but love, peace and healing. God Bless you Ken Sampsell and I look forward to those wonderful conversations when we meet again.
