“ My deepest sympathy to his family. He was my Dr. for many years in La Vegas. He was just starting his practice when I first went to him, I immediately liked him. I recommended him to my daughter who thought he was the greatest Dr. ever. He was always so cool and calm and kind. His diagnosis was always right on. He kept me healthy for lot of years. When he told us he was moving from Las Vegas we were very sad. I have never found another Dr. like him. I never forgot him either.

“ Dr. Friedman has been my husband's Doctor for a while now. He will be greatly missed! We pray for God's comfort and strength over each of you today and for the days to come. We are so sorry and heartbroken for Rachel and her children, his daughter and family and friends. He will be gone but not forgotten. I know he has touched so many lives through his work also, and will be missed by so many! May each of you feel God's loving embrace, strength and comfort. God bless 🙏

“ I met Lane only once. I have known his wife, Rachel all my life. On the night we all sat down to dinner in a little diner on the Upper East Side of Manhattan, he was warm and welcoming. Most of all he was so funny. He was sitting between his wife and his daughter and the love I saw in his eyes for these two women was unmistakable. By the end of the night, I knew I had made a friend for life.

“ Although it has been a few years since I have worked with you at CIM, I still remember our funny raw humored moments we shared amongst the POD, it was scary at times, that you and I would be on the same page. I am saddened by your passing and I am praying for your family as they try to live life without you in it. From all the pictures I looked at on facebook, as you shared your vacation and your last days with us, you were thoroughly enjoying life as we all should be. At the end, all that matters is the lives we touched, the friendships we made, and the memories we leave. You have left your mark on us all, your patients, family and your friends. You will be greatly missed!!!! RIP Friedy!!!
