“ You weren't only my cousin, cuz, you were so so much more to me.... you were my best friend. The fun times we've shared and had together, the laughs we've shared as well as the tears we've cried together just made us that much closer.... the good times and the bad ones too....along with the happy ones and when we were sad the other one already knew.... I'm lost without having you around to vent now and then too, save a place for me in heaven beside you like we were at graduation.....and be ready to catch up on everything that has been going on since you've been gone...my heart is already there with you my cousin and my best friend.....I miss you more than you can imagine and love you more than anyone else will ever know....

What you and I shared together no one else will ever know nor could they begin to kinda even understand to two of us when we were together and with out talking to each other, we still seemed to know what was going on with the other one all the time no matter what....I can't wait until we see each other once more, I miss you and love you like no other person ever could, for me I'll never find another friend to be as close as we always have been and until we see each other once more I count the days until we are together once again walk side by side hand in hand on that beautiful heavenly shore.... wait for me by the gate just inside I'm coming to meet you as soon as it fits into God's Plans for me.

*Love you and miss you my cousin and my best friend!!!!!!!*
